

ETIQUETTE ▪ HYGIENE ▪ UPKEEP

Let's keep the hut experience positive and the huts in great condition. Share these important practices with your group, and check out our short [Hut Planning & Arrival](#), [Hut Set Up](#), and [Hut Clean Up](#) videos.

Etiquette

- Respect hut capacities - no extra guests or overflow camping.
- 10th Mountain discourages use of snowmobiles to access huts. Respect non-motorized areas around the huts.
- Be courteous - quiet hours 10pm - 7am.
- If celebrating, book a whole hut.
- Arrival and departure time is 1pm.
- Choose your bed on arrival; store gear on or under your bed.
- Smoking not permitted in huts or outbuildings.
- Outdoor fires allowed during summer only in provided metal fire rings. Respect fire bans.
- Burn firewood judiciously, huts easily over-heat.
- Don't monopolize kitchen or communal areas.
- Use designated storage, or hang food in cold/inside location. Never leave food outside.
- Respect guests wanting to unplug, use devices discreetly.

Hygiene

- Dogs not allowed.
- Don't urinate in the snow at the hut - use the outhouse.
- Collect clean snow for snowmelt water/keep lid on snowmelt pot & hands out.
- Filter (bring your own) or boil snowmelt & any collected water before drinking.
- Cistern water can be used for dishwashing: wash with hot, soapy water, add ½ cap bleach to rinse.
- Thoroughly clean & disinfect food prep surfaces.
- Use provided hand sanitizer.
- For personal hygiene, bring disposable wipes & use marked personal wash bucket only.
- Spit toothpaste in sink, flush with water.
- Bring your own pillow case.

Upkeep Before departure:

- Sweep & clean kitchen/dining areas.
- Carry out garbage/leftover food.
- Split kindling/restock wood.
- Put cold ashes in metal drum.
- Turn stoves, lights & appropriate solar switches off.
- Close/lock all windows & doors.
