

Cleaning and Disinfecting Checklist – Hut Visitors

Date _____ Name(s) _____

Hut visitors are expected to clean and disinfect frequently-touched surfaces upon arrival, regularly while at the hut, and upon departure. Please find below a very thorough checklist. Please check items off when done, file it and record in the logbook. Hut caretakers, who typically visit the hut once per week, use the same checklist and the same cleaning and disinfecting products.

We encourage you to do your best and, certainly, hut visitors arriving after you will appreciate all that you do!

Kitchen, Dining and Common Areas

- Door knobs
- Kitchen countertops
- Propane stove knobs and timers
- Kitchen utensil container - exterior
- Cistern pump handle
- Table tops
- Bench tops
- Pantries/food storage cubbies - horizontal surfaces

(See Page 2 on back)

Bedrooms/Sleeping Areas

- Mattress covers – do not use bleach
- Shelves
- Door knobs
- Window cranks and window sills (frequently-touched)
- Hand rails
- Light switches/pull chain

Exterior, Outhouse, and Woodroom

- Combination lock – front door
- Outhouse doorknob
- Outhouse window crank
- Toilet lid and seat
- Axe handles

Please remember to clean and disinfect the disinfectant/cleaner spray bottles and containers.

Washing Dishes. Recommended best practice per Centers for Disease Control and Prevention:

1. Thoroughly wash with soap and hot clean water
2. Rinse with hot clean water
3. For protection against food-borne illness, sanitize in solution of cool water/bleach solution (1 Tablespoon bleach/1 gallon of water)
4. Air dry
5. Before putting dishes back on shelf, wash hands and/or wear rubber gloves
